**DECLARATION OF MR. JAMES P. HOGAN**

I, James P. Hogan, declare the following under penalty of perjury pursuant to 28 U.S.C. § 1746:

1. I am currently the Chief of the Defense Freedom of Information Policy Office (DFOIPO), which is part of the Freedom of Information Division (FOID). Another office within FOID is the Office of Freedom of Information, which functions as the Office of the Secretary of Defense (OSD)/Joint Requester Service Center. I have served in this position since June, 2006. In this capacity, I oversee the processing of FOIA appeals for the OSD, Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, litigation for OSD, and advise the Department of Defense (DoD) Components on FOIA policy guidance and procedural issues.

2. I have been assigned by the DoD to provide to the Court the information available to the DoD. I make this declaration, supported by the DoD *Vaughn* Index at Attachment A, in my official capacity based upon my own personal knowledge and upon information available to the agency. If called as a witness I would be competent in my official capacity to testify as to the following facts:

3. In my current capacity as the Chief of DFOIPO, I oversee the administration of the agency's programs established pursuant to the FOIA, 5 U.S.C. §552, and the Privacy Act, 5 U.S.C. §552a, ("PA"). I also review files prepared in conjunction with FOIA and PA requests and appeals, the correspondence related to those requests and appeals, searches conducted in response to those requests and appeals, and the preparation of responses to those requests and appeals to ensure that determinations to withhold or to release records are made in accordance with the FOIA; the PA; DoD 5400.7-R, the Department of Defense Freedom of Information Act Program; DoD 5400.11-R, the Department of Defense Privacy Program; and 32 C.F.R. §518.

**USACIDC'S REFERRAL OF DOCUMENTS TO DFOIPO**

4. USACIDC sent DFOIPO a FOIA request for consultation related to this case that included a number of documents that USACIDC believed were generated by personnel assigned to components of OSD. USACIDC's request indicated that the documents were part of a larger volume of documents that were responsive to plaintiff's FOIA request for "copies of all records pertaining to Unconventional Concepts, Inc. or Michael J. Hopmeier." Because the documents originated with a component of the OSD, specifically the Defense Advanced Research Projects Agency (DARPA), USACIDC asked that my office review the documents and make recommended release determinations concerning the documents.

5. This office reviewed the referred documents and, upon consultation with DARPA, provided the recommended release determinations to USACIDC. My office has prepared a *Vaughn* Index for select documents that USACIDC referred to my office for release determinations.

**FOIA EXEMPTION 3, 5 U.S.C. § 552(b)(3)**

6. Pursuant to 5 U.S.C. 552(b)(3) and 10 USC § 2305(g), my office, in coordination with DARPA, withheld in full or in part documents that were contract proposals. In general, these documents constitute proposals that a private company – other than UCI – submitted to a federal agency in response to the requirements of a solicitation for a competitive proposal. These documents were not set forth or incorporated by reference into a contract.

**FOIA EXEMPTION 4, 5 U.S.C. § 552(b)(4)**

7. Pursuant to 5 U.S.C. 552(b)(4), my office withheld in full or in part documents that contain "trade secrets and commercial or financial information obtained from a person and privileged or confidential[.]"

8. Documents withheld in their entirety under Exemption 4 are currently undergoing review with the submitter of the information in accordance with Executive Order 12,600, June 23, 1987, and therefore the agency does not have a final position on their releasability.

**FOIA EXEMPTIONS 6 & 7C, 5 U.S.C. § 552(b)(6) & (b)(7)(C)**

9. The documents also contain names and personal information and, therefore, are subject to redaction pursuant to 5 U.S.C. § 552 (b)(6) and (b)(7)(C).

10. Concerning the application of Exemption 6, the individuals named within the report have an expectation of privacy by virtue of the fact that they are connected, either as the person submitting the Hotline complaint, the subject of the investigation, or other third party personnel. Furthermore, because the release of their names would not shed any light on the operations and activities of the Federal government, there is no public interest in the release of this information. Therefore, I determined that public access to these individuals' names and other information that would reveal their identities contained within the report would constitute a clearly unwarranted invasion of their personal privacy.

11. Concerning the application of Exemption 7C, a Department of Defense Hotline report is a file compiled for law enforcement purposes by the DoD Office of the Inspector General. As previously stated, the individuals named within the report have legitimate privacy interests that are not outweighed by any public interest. Therefore, I determined that public access to these individuals' names and other information that would reveal their identities contained within the report could reasonably be expected to constitute a clearly unwarranted invasion of their personal privacy.

12. It should be noted that the Defense Hotline Completion Report dated August 17, 2004 (at Bates stamped pages 2424 to 2522 and 35717 to 36110) was initially withheld in full. My office is in the process of conducting a segregability analysis of those pages to determine whether additional pages can be released to plaintiff. The anticipated releases and redactions are detailed in the attached *Vaughn* index.

13. My office's application of FOIA exemptions is detailed in its *Vaughn* index and is incorporated fully herein.

Executed this 21st day of February 2012 at the Defense Freedom of Information Policy Office, Freedom of Information Division, Department of Defense, Alexandria, Virginia.

James P. Hogan
